Medical Foster Homes

The Medical Foster Home (MFH) Program is an exciting new program in the startup phase at the KCVA. It provides an alternative to nursing home care. It is a private home with a trained caregiver. It is a private pay option for the Veteran to compensate the caregiver. The payment is for room, board, personal care, and daily tasks while living with the caregiver in a VA approved MFH. We are now looking for caregivers willing to open their homes to Veterans.

Please call Korri and Colleen at (816) 922-2009 for more information.

Our Optical Shop has relocated to Room MB-495

Many improvement projects are planned over the next few years. Stay tuned for important construction updates!
Welcome!

Join us in welcoming our new Chaplain, John Ellis.

Chaplain Ellis comes to us from Augusta, Georgia and is an Army Veteran.

**Summertime Safety**

*Information from cdc.gov*

The warmer temperatures brings thoughts of freedom, relaxation, exploration, and being closer to nature. Whether you're relaxing in the backyard, turning up your garden, enjoying the pool, or exploring the great outdoors, here are some ways to help keep you and your family healthy this spring and summer.

- When grilling use a meat thermometer to ensure that your meat and poultry is thoroughly cooked.
- Avoid binge drinking.
- Ticks can transmit Lyme disease. Avoid tick-infested areas and use a repellent containing 20% DEET.
- Avoid being outdoors during the midday if the sun is intense, use sunscreen with at least SPF 15, cover up with clothing, wear a brimmed hat, and wear sunglasses that block UVA and UVB rays.
- Be aware of the signs of heat stress and drink plenty of water.
